ARABELLAPARK ORTHOPEDICS CENTER Munich

Orthopedics clinic near Arabellapark in Munich.

After performing site analyses and feasibility studies at various locations and carefully considering various existing properties, the final choice was the “Arabellapark Munich” location.

The orthopedics center offers outstanding medical services in an unusual atmosphere that does not feel the least bit medical. The “dynamic light” concept creates alternating color impressions in the hallways.

With computer-supported visuals, we were able to precisely show the light and room conditions even during the design phase. However, pictures of the finished property prove that the final result also lived up to the computer drawings.
