## HOSPITAL BUILD - presentation on trends in healthcare design and construction

*Submitted by German Haimerl on 19. June 2015 - 17:55*

*HOSPITAL BUILD Dubai* is the regional hub for health-facility planning, design, construction and management. Across five main themes, the event provides a platform on which to discuss new healthcare projects, share best practice in design and construction, and source technologies and services. German Haimerl was invited to give a presentation on trends and developments in modern hospital construction. Approximately two hundred listeners from different countries followed attentively. The subsequent discussion showed how much the participants were interested in the latest developments and how different the level of development in the various countries of origin still is.
